## PRO COMP SUSPENSION

Suspension Systems that Work!

**Part # 20-66823**  
**TJ SHIFTER DROP**

### INSTRUCTIONS:

Part #	Description	Qty.
	Shifter Pivot Lowering Straps	2 ea
	6 mm Button Screws	4 ea
	6mm Nyloc Nuts	4 ea

- ⇒ **Read instructions carefully before attempting installation.**
- ⇒ **Secure and properly block rear wheels prior to installation.**
- ⇒ **Check hardware list to assure your kit is complete.**

### INSTRUCTIONS:

- ⇒ Assemble shifter lowering straps to pivot bracket using **6 mm** button screws as shown in illustration A.
- ⇒ Install pivot bracket and lowering strap assembly into vehicle using existing floor pan bolts and nyloc nuts to secure assembly.

**NOTE:** *It is very important the shifter pivot rod protrudes through the self aligning bearing on the pivot bracket approximately 3/8". By bending the opposite bracket on the transfer case, you can easily achieve this.*
